A quotation is not substantially responsive if it contains material deviations or reservations to the terms, conditions, and specifications in this **Request for Quotation**.

- (d) The Firm and the Key Experts will be assessed using the technical criteria described in the **Terms of Reference**. To be qualified for further evaluation, the Firm and the Key Experts shall meet the minimum total score of 80%. This technical score is weighted using a technical-financial ratio of 80/20. Thereafter, the total combined score or the best-evaluated score for technical and financial quotations is computed by using the following formula:

$$S = \frac{T}{T_{\text{high}}} (W) + \frac{P_{\text{low}}}{P} (100 - W)$$

Where,

- S = best-evaluated score
T = total technical score awarded to the Service Provider
T_{high} = technical score achieved by the Service Provider that was scored best among all responsive quotations
P = evaluated bid price offered by the Service Provider
P_{low} = lowest of all evaluated prices offered among responsive quotations
W = weight for the technical quotation (80)

- (e) In evaluating the quotations, the Client will adjust for any arithmetical errors as follows:
- (i) where there is a discrepancy between amounts in figures and in words, the amount in words will govern;
 - (ii) where there is a discrepancy between the unit rate (where applicable) and the line item total resulting from multiplying the unit rate by the quantity, the unit rate as quoted will govern; and
 - (iii) If you refuse to accept the correction/(s), your quotation will be rejected.

Award of Contract

TERMS OF REFERENCE

RFQ/OPI/16: Procurement of a Service Provider for the Conduct of an Online Survey on Competition Policy and Environmental Sustainability

I. Background

1. The Philippine Competition Commission (PCC) is an independent quasi-judicial body mandated to implement Republic Act No. 10667 or the Philippine Competition Act (PCA). The PCA prohibits anti-competitive agreements, abuses of dominant position and anti-competitive mergers and acquisitions, as the law aims to enhance market competition for the benefit of consumers and businesses. The PCA also mandates PCC to advocate for a level playing field through a National Competition Policy as embodied in the Philippine Development Plan (PDP) 2017-2022 and its successor, PDP 2023-2028.

2. To support implementation of the PCA and contribute to achieving priority outcomes, the PCC with the assistance from the Asian Development Bank (ADB), is implementing the Capacity Building to Foster Competition Project. The project will contribute in strengthening the institutional capacity of the PCC and other agencies with competition-related mandates by building the capacity of its human resource in competition-related functional areas and in pursuing priority reforms to foster a culture of competition through research and advocacy.

II. Rationale and Objective of the Assignment

3. The PCC's mandate to foster a culture of competition can be demonstrated through the following functions: (i) issue advisory opinions and guidelines on competition matters supported by evidence-based research and analyses; (ii) intervene or participate in administrative and regulatory proceedings on measures introduced by government agencies which may affect market competition, and (iii) promote capacity building and sharing of best practice with agencies with competition-related mandates. To support these functions, the PCC seeks to further strengthen its technical capacity on competition economics and antitrust enforcement and to broaden knowledge on competition issues in key sectors or industries.

4. The interface between competition policy and environmental, social and governance (ESG) performance is gradually gaining traction as consumers are becoming more conscious of ESG issues. Heightened awareness of ESG, particularly environmental issues, can affect consumers' purchasing decisions and could have important implications on market competition. However, innovators who aim to address ESG concerns face difficulties in gaining market share from incumbent players given consumers' brand loyalty, price sensitivity, cost of switching, or information quality—information believed to entice consumers to switch may end up discouraging purchases.¹

5. This study uses the case of selected appliances and electrical supplies available in the Philippines to determine the influence of ESG concerns on consumer decisions, the types and channels of product misperceptions, and information to increase the likelihood of product substitution. Results may help increase PCC's understanding on the perception of ESG concerns among consumers, and in determining relevant product markets.

¹ For example, a light bulb that is marketed as an exceptionally energy-efficient and money-saving product is likely to be ignored by consumers to avoid politically-charged issues; see <https://news.nationalgeographic.com/news/energy/2013/04/130430-light-bulb-labeling/>.

III. Scope of Work

6. In consultation with the PCC, the service provider will be engaged to conduct (i) an online survey and (ii) an incentivized discrete choice experiment (DCE) among individual consumers in the Philippines. The target sample size is 1,500.

7. In the online survey, respondents shall be asked to answer questions to help the researchers determine respondents' misperceptions on a variety of appliances and electrical supplies, and to disentangle the channels of misperception (e.g., lack of awareness or inability to compute for energy savings). In the incentivized DCE, participants shall be asked to make a choice among options with different attributes (e.g., price, kw/h, energy savings, size, wattage, etc.). DCEs allow investigators to explore the relative importance of each attribute of a product that may influence a respondent's decision to choose one item over another. All respondents who complete the survey will be compensated.

8. The service provider is expected to:

- i) Finalize the survey and DCE in consultation with the researchers;
- ii) Program the online survey and DCE following the finalized design
- iii) Work with the researchers in getting ethics clearance from an appropriate institution;
- iv) Pre-test the survey and DCE to at least 3 respondents;
- v) Gather complete responses from at least 1,500 qualified respondents;
- vi) Prepare and submit a detailed dataset from the survey and the choice experiment.

IV. Plan of Approach and Methodology

9. The service provider shall submit a description of the approach, methodology, and work plan for performing the assignment, including a detailed description of the proposed staffing plan showing the description of the structure and composition of the team, experience and quality of the service provider and the Project Team, for the conduct of the data collection.

V. Specification and Qualification Requirements

10. The service provider must be a reputable survey institution/firm institution with quality Project Team Leader and researchers specialized in the field of conducting consumer surveys and related fields of study.

11. Must be able to meet the minimum 80% hurdle rate requirement in the technical bid evaluation based on the criteria and rating scale indicated in **Annex 1** of this Terms of Reference.

VI. Approved Budget for the Contract

12. The ABC for the project is **PhP1,000,000.00**, inclusive of all applicable government taxes and services. The contract price shall include all the costs and profits arising from them or in relation to the services rendered in connection with the engagement and until the end of the contract. The price offer shall be not more than the ABC.

VII. Payment Scheme/Schedule

13. The target conduct of the data collection will be from 3rd week of May to 4th week of July 2024. Payments to the service provider shall be made based on the Price Schedule in **Annex 2**.

Deliverables	Percentage of remuneration cost
Upon submission and acceptance of the inception report and workplan	15%
Upon finalization of the survey and DCE instrument and completion of the pre-test among 3 respondents	50%
Upon submission and acceptance of the final report with complete raw data from at least 1,500 respondents	35%

VIII. Reserved Rights on the Use of the Outputs

14. All materials and papers formulated and provided in conjunction with this activity shall be owned by the PCC with full and exclusive rights on future use thereof.

IX. Confidentiality of Data and Information

15. To ensure protection of PCC Information, the service provider/s as well as their research assistants/associates are expected to observe and abide by the established PCC Information Security Management System (PCC ISMS) and shall agree to sign a non-disclosure agreement.

16. All data, documents, records (collectively “Information”) to be provided to the Project Team for purposes of delivering the Services are considered confidential information and shall remain the sole property of PCC. The service provider/s shall acknowledge the importance of maintaining security and confidentiality of the Information and agree to prevent unauthorized transfer, disclosure, or use of these Information by any third person or entity. The service provider shall not use the Information for any purpose other than in connection with the Services. The service provider shall ensure that it will not retain, after completion of the Services with which the Information was provided, all or any portion of the Information, in any manner whatsoever.

17. Upon completion of the Services, the service provider shall not keep any copy of the Information in either digital or physical format, including, but not limited to notes, documents, memoranda, and other writing, electronic records, communications, and the like.

X. Bank’s Anticorruption Policy; Standards of Conduct

The anticorruption policy of the ADB requires that borrowers (including beneficiaries of ADB-financed activity), as well as service providers under ADB-financed contracts, observe the highest standard of ethics during the selection process and in execution of such contracts. The learning service provider shall take appropriate action against any employees, Expert, or Sub-Consultants, including suspension or termination of employment, contract, or sub-contract, if any form of unethical or inappropriate behavior is identified.

The service provider shall conduct training programs for its employees, Experts and Sub-Consultants to raise awareness on and prevent any form of bullying, discrimination, misconduct, and harassment including sexual harassment, and to promote a respectful work environment. The learning service provider shall keep an up to date record of its employees and Sub-Consultants who have attended and completed such training programs and provide such records to the PCC or ADB at their first written request.

The following definitions shall apply in these Standards of Conduct:

(a) “Bullying” is a form of harassment consisting of repeated or persistent aggression or other malicious behavior in any form by one or more persons, which has the effect of humiliating, belittling, offending, intimidating, or discriminating against another person. It may include persistent, unwarranted, or unconstructive criticism, personal abuse and/or ridicule, either in public or private, which humiliates or demeans the individual targeted, gradually eroding or intending to erode the person’s self-confidence. Appropriately conveyed criticism, disapproval, negative performance assessment, and similar appraisal, by themselves do not constitute bullying or harassment.

(b) “Discrimination” is the inappropriate differentiation between individuals or groups. Such discrimination includes differentiation based on characteristics such as race, color, nationality, national, social or ethnic origin, religion or similar belief, language, political or other opinion or affiliation, gender, gender identity, sexual orientation, family or civil status, health status, size, or physical ability.

(c) “Harassment” is any unwarranted or unwelcome behavior, whether verbal, psychological, or physical, that interferes with work or creates an intimidating, hostile or offensive work environment. Harassment includes, but is not limited to, bullying and sexual harassment.

(d) “Integrity” means a firm adherence to ADB’s Anticorruption Policy (1998, as amended to date), the Integrity Principles and Guidelines (2015, as amended from time to time), and to the highest ethical standards.

(e) “Misconduct” is behavior, or an act or omission, which is unacceptable or improper, contrary to the principles or rules of ADB, or is illegal or unethical. Misconduct may not necessarily be intentional and

can arise from neglect, recklessness or mismanagement. Misconduct includes, but is not limited to, (i) the failure to observe these standards or other rules, regulations, guidelines, or procedures; or (ii) conduct, actions, or omissions, within and outside ADB, that risk discrediting or disgracing ADB, bringing ADB into disrepute, or could undermine the integrity of ADB's policies, processes, or procedures.

(f) "Respect" refers to interacting with all others in the work environment in a professional, positive, and inclusive manner, regardless of hierarchical role or rank. This includes treating others with due consideration, courtesy, dignity, and open-mindedness, as well as working without prejudice or bias toward individuals or institutions that have different characteristics, backgrounds, and viewpoints.

(g) "Retaliation" is any detrimental act, direct or indirect, recommended, threatened, or taken against anyone who has raised or is considering raising a complaint of misconduct whether formally as whistleblower or witness or person associated with a whistleblower or witness or otherwise, in a manner material to the complaint because of a report of or cooperation with an ADB investigation into any form of (alleged) misconduct. Retaliation can include, but is not limited to, harassment, discriminatory treatment, assignment of work outside the corresponding job description, withdrawal of work assignments contained in the job description, inappropriate performance appraisals or salary adjustments, or the withholding of an entitlement.

(h) "Sexual Harassment" is any unwelcome sexual advance, request for sexual favors, or other verbal or physical conduct of a sexual nature that results in physical, sexual, or psychological harm or suffering to another person, or which is made or suggested to be a condition of employment, promotion, or other personnel action or creates an intimidating, hostile, or offensive environment.

Evaluation and Comparison of Quotations

1. Quotations determined to be substantially responsive to the Request for Quotation will be evaluated using the Best Value Method of Evaluation. A quotation is not substantially responsive if it contains material deviations or reservations to the terms, conditions, and specifications in the Request for Quotation.

To be qualified for further evaluation, the Firm and the Key Experts shall meet the minimum total score of 80%. This technical score is weighted using technical-financial ratio of 80/20. Thereafter, the total combined score or the best evaluated score for technical and financial quotations is computed by using the following formula:

$$S = \frac{T}{T_{\text{high}}} (W) + \frac{P_{\text{low}}}{P} (100 - W)$$

Where,

- S = best evaluated score
T = total technical score awarded to the Service Provider
T_{high} = technical score achieved by the Service Provider that was scored best among all responsive quotations
P = evaluated price offered by the Service Provider
P_{low} = lowest of all evaluated prices offered among responsive quotations
W = weight for the technical quotation (80)

3. The contract shall be awarded to the Service Provider whose quotation has been determined to be substantially responsive to the Request for Quotation and who has the best evaluated score (S) among all responsive quotations.
